## ABOUT ME

Having completed the **Professional Web Developer Course at** Master D, I aim to apply my knowledge in a company whose mission is to deliver digital solutions through technological innovation, creativity, and customer focus, which strongly aligns with my professional goals.

I am skilled in creating web products using **HTML/CSS, BOOTSTRAP, JavaScript, PHP and MySQL**.

I am organized, communicative, capable of taking a practical approach to problem-solving, and I value collaboration and feedback as tools for continuous improvement.
