PEDRO COSTA

Web Developer · React / Next.js / Vue.js · UI/UX Design

Sintra, Portugal · +351 915 837 393 · pcostaaaa@gmail.com · linkedin.com/in/pedroabcosta · github.com/PCostaaa · Portfolio

PROFILE

Web developer with professional experience in WordPress, React, Next.js and Vue.js, from Figma prototyping to production front-end code. Background in telecommunications that brings discipline and strong analytical skills to solving code problems.

PROFESSIONAL EXPERIENCE

ActiveMedia | *Web Developer* — Jul 2026 - Present

- WordPress website development: from implementing Figma designs to adapting templates for clients.
- Identifying and implementing UX/UI and structural improvements in existing projects.

Ondivolt - Instalações Elétricas | *Junior Electrician* — Nov 2024 - Jun 2025

- Role held alongside the Web Development Professional Training Course, balancing hands-on technical work with full-time study.

Optilink Lda | *Telecommunications Technician* — Dec 2018 - Jul 2024

- Carried out technical diagnostics, documentation and customer support in high-pressure, deadline-driven environments.
- Managed priorities autonomously on critical infrastructure systems.

FEATURED PROJECTS

The Wild Oasis | *Full-Stack Hotel Management & Booking System* — Portfolio

- Dual platform (admin dashboard and booking website) with a synchronised backend, secure authentication and real-time data management.

Technologies: React, Next.js, React Query, Styled Components, Supabase, REST APIs

Vue.js Contacts Manager | *Technical Assessment*

- Contact management application delivered from scratch to a functional, tested product: authentication, route guards, form validation and automated testing.

Technologies: Vue 3, Composition API, Vue Router, Vitest, Vue Test Utils, PrimeIcons

SF Beats | *Landing Page for a Music Producer* — Portfolio

- Fully responsive landing page for a music producer.

Technologies: React, Vite, Tailwind CSS v4

Eventhive | *Full-Stack Event Management System* — Final Course Project

- Secure login, admin dashboard, full event CRUD and a working shopping cart for tickets.

Technologies: HTML, CSS3, Bootstrap, JavaScript, PHP, MySQL

UX/UI DESIGN PROJECTS

Three Figma case studies (research → fully linked high-fidelity prototypes → component library)

Costa Speakers (audio e-commerce) · **Wavground** (beat-making mobile app) · **Pulse** (SaaS dashboard)
